

MORNING APPEAL

SUNDAY, DECEMBER 3

L. P. Fisher, newspapers advertising agents, 21 Merchants' Exchange, San Francisco, is our authorized agent. This paper is kept on file in his office.

THE PROPER THING.

A protest is being raised because the new Democratic Port Collector in San Francisco proposes to oust all the Republicans incumbent and place none but regular Democrats on guard.

Well what's he there for? When a party is in power it is expected to look after its rank and file and a party that doesn't do that is deserving of no consideration whatever. It doesn't deserve the name of a party.

A party that pursues any other course soon goes to the wall.

All the talk about the Populist party merely going to the polls to purify the political atmosphere is all bosh. The Populists will be on deck just like any other party.

To win the election and take good care that the friends who helped them make the fight don't suffer from cold winters.

Politics is politics and you can't found political parties and hold them together on anything but the system of judiciously handling the pie counter after election.

Nevada's Scoop.

No State in the Union made so creditable a display at the World's fair at Chicago, or no State or country on earth took as many premiums according to the population and money expended in making the exhibit as Nevada did. When this much despised State can come into competition with the whole world and rank first in the production of apples, wheat, barley, flour, sorghum, hay, borax, sulphur, oats and thirty or forty other things, it is proof conclusive that our undeveloped resources can not be much longer neglected, but that very shortly the tide of immigration will turn this way, and when it does our die is cast and our future made. Put a shoulder to the wheel of progress and see to it that Nevada is properly put before the world at the Midwinter exhibition in San Francisco. —Gazette.

Poorly Paid.

Prof. Lewers said rather a good thing before the Teachers' Institute when he remarked that a lady teacher was like a silver dollar, worth really 100 cents, but paid at the rate of 60 or 70 cents.

No class of people really assist more to lay the foundations of a State than the teachers.

Illiteracy means crime, idleness, and a subsequent expense to the State in the maintenance and care of criminals and paupers.

Education in this generation saves an amount beyond estimation to future generations and the country never loses anything in paying good teachers good salaries.

The Genoa Courier gives an extended account of a child recently born in Genoa of Hebrew parents that came into the world a born Jew. "The rite of circumcision," adds the Courier, "having been performed by nature prior to birth." Should this sort of thing become fashionable among the Hebrew families it would seriously interfere with the business of Rabbi Cohn in Douglass county.

Foster says: The next storm wave will reach the Pacific Coast about the 9th cross the Western mountains by the close of the 10th the Great Central valleys from the 11th to the 13th and the Eastern States about the 14th.

The cold wave following this storm will be its most notable feature, as it will be more severe than usual.

A Chicago paper published an article yesterday to the effect that when Mrs. Andrew Fay took the stand she would expose the whole plot which led to Cronin's murder. The plot was laid at her husband's house and she overheard it all.

Women are proverbially late when going to boats or trains. Recently one in Oakland was half a minute late and running to catch the boat caused heart failure and she dropped dead. Stopping to fluff a curl or arrange a ribbon was probably what cost her her life.

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Ache-knocked out in short order. No horseman should be without a bottle.
